Professional Summary

Computer Science undergraduate with strong foundations in **full-stack web development**. Experienced in building scalable applications using **JavaScript, React.js, Node.js, Express.js, and MongoDB**. Familiar with REST API development, object-oriented programming, and Agile methodologies. Passionate about building responsive interfaces and backend systems for modern web applications.

Technical Skills

Programming: Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, SQL

Concepts: Data Structures & Algorithms, OOP

Tools: Git, GitHub, VS Code

Practices: Agile Development, JWT Authentication

Professional Experience

Infosys Virtual Internship – Java Campus Track

Remote

Lost & Found Portal

- Developed campus portal with **role-based authentication using JWT**.
- Built backend services using **Node.js and Express.js**.
- Implemented item submission and search modules with validation.
- Developed keyword-based auto-matching system using fuzzy matching.
- Created admin dashboard for analytics and moderation.

Projects

Smart Job Application Tracker + AI Resume Matcher

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed full-stack application to manage **100+ job applications**.
- Built responsive frontend components using **React.js**.
- Designed RESTful APIs for job workflow tracking.
- Implemented secure authentication and MongoDB database operations.

Multimodal Biometric Authentication System

Tech Stack: Python, Machine Learning

- Developed authentication system using fingerprint and facial recognition.
- Applied machine learning models for identity verification.
- Reduced false authentication attempts by **40%**.

Education

Matrusri Engineering College

Hyderabad, India

B.E. in Computer Science and Engineering

2022 – 2026

CGPA: 8.22

Achievements

- NPTEL Certified in Data Structures and Algorithms using Python.
- Solved **250+ problems on LeetCode** demonstrating strong algorithmic skills.
